The Palm of Superiority.

On the whole we are constrained, after close observation, and the use of different machines for more than a year, to award the palm of superiority to the Willcox & Gibbs, as the most complete in all its parts, and the most perfect in its operations—a family machine, adapted to sewing any number of thicknesses, from one to twenty folds of sheeting muslin.—*The Economist.*

The Best Work.

The machine arrived in due time, and is giving first rate satisfaction. Almost the first work I did with it, was to stitch a nice cloak, for a lady who had hired twenty stitched on the different machines in the village, during the past autumn; and she decided that it was the best piece of work she had yet had done.—*W. A Charm.

The Rev. D. H. Rogan, of North Amherst, Mass., says "The machine I bought of you a few months since, had not been in the house an hour before the family were in love with it! And if that feeling has changed any since, it is only to become more intense. Its operation is so admirable, at all times, and on all kinds of work, that it is indeed—A CHARM."—*Letter to Wilcox & Gibbs S. M. Co.*

BOARD OF TRADE BAG FACTORY, Seamless Bags, Gunny Bags, Burlap Sacks, NOYES & BROWN, 45 LaSalle Street, Chicago.

FOR ALL KINDS OF SHADE FIXTURES, GO TO DRAKE & BRO., NO. 184 CLARK STREET, CHICAGO, ILL.

Strangers, before leaving the City, should call and see SCOTT, ROUSE & CO.

Good Ones, No Doubt.

Mrs. L. M. Taylor, Utica, N. Y., says: "While many of my friends have double-thread machines, (good ones, no doubt,) which they have set aside, declaring the preparation of the work and adjustment of the machine more trouble than hand-sewing—my Willcox & Gibbs is always ready to perform its silent mission. There is no folding, no basting, no marking for seam, hem, fell, quilt, or tuck. This ingenious machine and its admirable attachments do all."

One Way to Avoid Trouble.

E. Styles, of Rhinebeck, N. Y., writes: I have a "lock-stitch" machine, which I would like to send you, to dispose of for me. I don't want to sell it *here;* it would be giving me so much trouble." Of the Willcox & Gibbs Machine he says: "Without a single exception, every machine that I have sold, has given perfect satisfaction: and I have sold, four times as many of these machines, during the past year, as have been sold here of all other kinds."

The "Irrepressible."

Gents:—On Monday last, the machine I purchased of you got thrown from a wagon—bottom up. I thought *then*, I should see a Willcox & Gibbs Machine "out of order." Well, the "table" was shattered, but the "Irrepressible"—the machine itself—was all right yet! Enough of the table being left to apply the power, it went right to work and performed as well as ever. Please send me a new table-top.—*Geo. W. Leach, Binghamton, March 7, 1867.*

Incentive to Industry.

And while the novelty lasts, at least, a Willcox & Gibbs Sewing Machine is a great incentive to industry in the family. Restle s little girls delight in a kind of work so exceedingly like play; and boys even take to it, and think it "jolly good sport," to be able to manufacture their own shirts.—*Little Pilgrim.*

Alike on Both Sides.

All who are acquainted with double-thread Machines, know that they require a great amount of care and patience in the operator, to make the stitch alike on both sides of the fabric, *and not one person in ten is able to do this;* and when it is not done the work is *worthless.* But the *Willcox & Gibbs* stitch always makes an even seam.—*Letter of Mrs. Alter, Newburyport, Mass.*

Not—And Be Obliged to Use It.

Rev. J. B. Pitman, Matteawan, N. Y., writes: "We used one of your first machines two years, and we have used a double thread one." The result of our experience is, that for family sewing, we would not accept the latter—as a present—and be obliged to *use* it."—*To Willcox & Gibbs S. M. Co.*

A Beauty And A Charm.

"The unparalleled simplicity and durability of its mechanism, and the absolute certainty of its operation, make it invaluable to every Lady. The stitch is entirely unexceptionable, and perfectly satisfactory in all goods. The machine is a beauty and a charm." Thus writes the lady who introduced the *first* Willcox & Gibbs Sewing Machine in Chicago—seven years ago.

What a Miss of Fourteen Can Do.

It is an objection to most of the machines of other patents, that they require so much time and skill to learn to operate them. But the Wilcox & Gibbs is so simple, and its movement is so exceedingly easy, that an intelligent Miss, of fourteen, can comprehend the whole modus operandi, and work it in two hours!—*The Economist.*

From Mrs. Frank B. Morris.

I have used one of your machines over five yerrs. It has never cost one cent for repairs, as it has never been out of order. Am more than satisfied with it; would not exchange it for any other kind. In my opinion the Willcox & Gibbs is the best machine for family sewing. —*Letter of Mrs. Morris, Rockport, Pa.*

What Constitutes a Fortune.

"It is now a little over four years," says the Rev. G. W. LEECH, "since *it was my good fortune* to get one of your machines. It has done a great amount of work for ourselves and others; *has never needed any repairs;* and, in our estimation, is now *better than a* NEW *one of any other kind.*"—[Letter to Willcox & Gibbs S. Wonderfully Pleased.

About four months since, I purchased for my wife a Willcox & Gibbs Sewing Machine. Already she is able to excel, in the quality of the work, any of the other ladies in town, who have Sewing Machines of other kinds. Mrs. G. is wonderfully pleased with her machine. —*Letter of Mr. A. In Use Five Years.

And Not a Day out of Order in That Time.

Mr. Wm. A. WEST, of Dry Run, Pa., says: "We have had one of the Willcox & Gibbs Sewing Machines IN USE OVER FIVE YEARS, AND IT HAS NOT BEEN A DAY OUT OF RUNNING ORDER IN THAT TIME. We would not exchange it with our neighbors for the Wheeler & Wilson, or Grover & Baker, though I have nothing to say disdaragingly of them."

A Mechanical Wonder!

The *Scientific American*, in speaking of the Willcox & Gibbs Sewing Machine, says: "One cannot but admire the beauty and accuracy of its movements, and the entire absence of all noise, even when running at the rate of 2,000 stitches and upwards per minute; this alone must prove a great recommendation to it. Another merit is the good workmanship. The parts are made interchangable, so that in the event of accident to the machine, any part can be replaced at a trifling cost. It is indeed, a MECHANICAL WONDER—A HOUSEHOLD NECESSITY."

GENTLEMEN'S FURNISHING GOODS, at G. T. BELDING & CO.'S, S. W. Cor. Dearborn and Randolph Streets.

"Things of Beauty and a Joy Forever."

We are very highly pleased with it and its performance. It is certainly fully up to its claims. It seams with great neatness and wonderful rapidity, running easily, and making but little noise. Its hemming, felling and braiding are '*things of beauty and a joy forever.*' It lifts a heavy weight from the stitch-burdened seamstress.—W. S. BALLINGER to the Willcox & Gibbs S. M. Co.

"Single Thread" vs. "Double Thread."

At the "Grand Trial of Sewing Machines" at Island Park, the contest being between "Single Thread" and "Double Thread" Machines, and the latter claiming an "advantage" *because* of its using "*two*" threads instead of "*one*," the result was a *unanimous* "DECISION," of the "judges," after a "protracted and severely contested trial," that "*the advantage is* NOT *on the side of a* 'DOUBLE-THREAD' *but on that of a* 'SINGLE-THREAD,' as used by the Willcox & Gibbs Machine."—*See* "*Report of Grand Trial.*"

Two Threads Not Necessary.

The *Christian Advocate and Journal* says. "While we abate none of the well-deserved praises we have given to the others, we must in justice express our confidence in the merits of the Willcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it in proving beyond doubt that TWO THREADS ARE NOT, as was supposed, NECESSARY TO A GOOD INSTRUMENT."

Would Not Accept any other as a Gift.

Yours is a machine that needs only to be seen to be appreciated; and once appreciated, it does not, I find, take an intelligent mind long to decide upon its superiority to *all* others for family use. *My wife would not accept of any other patent as a gift*, if she must receive it on condition of giving up yours.—[Letter from the Rev. The Most Rapid Sewer.

A good many of these Machines have been sold in the counties of Missisquoi and Broome, where they give the best of satisfaction. It is noiseless—there are no springs to get out of order—and its simplicity enables the most inexperienced to operate it. The Willcox & Gibbs is the most rapid sewer in the world.—*Sherbrooke Gazette, C. E.*

Capital Friends at Once.

I began my acquaintance with it with some trepidation, but it soon put me quite at my ease. We were capital friends at once; and, as yet, have had no falling out. Together we fell right to work, and manufactured an article of clothing very creditable that very morning. The simplicity of this machine (Willcox & Gibbs) is only equaled by the unerring accuracy with which it works. —*Little Pilgrim.*

How Experience Conquers Prejudice.

Mr. George Thrall, of Rochester,, in a recent letter to Willcox & Gibbs S. M. Co., writes: "One of your machines has been used in my family for the past eighteen months. It has given perfect satisfaction, and I consider it the *best* Sewing Machine for family use. *I the more cheerfullg bear my testinony in its favor because I was at first greatly prejudiced against it.*'

Wondrously Sustaining Thought.

Ah, mothers and wives, when work presses—when mu-lins, linens and prints cumber your drawers, and little ones clamor for spring "toggery," the thought that in your sitting-room waits, ever to help you (alluding to Willcox & Gibbs Sewing Machine), a silent, trusty friend, of forty sewing woman power, is wondrously sustaining, isn't it?—*Little Pilgrim.*

More Friends Than Ever.

Mr. E. Styles, of Rhinebeck, N. Y., in a letter dated Aug. 25th, 1866, says: "I am sure that I have sold, during the past year, four times as many Willcox & Gibbs Machines as have been sold here of all other kinds. Without a single exception, every machine that I have sold has given perfect satisfaction; and the Willcox & Gibbs has more friends here to-day than ever before."

Without the Least Fatigue.

Mr. J. B. Durability of its Work.

John Edwards, of Toronto, C. W., writes: "One of your machines has been in use in my family for the last two years, and has given entire satisfaction. It recommends itself especially, by the ease with which its use can be learned—its applicability to any thickness of fabric—its never being found out of order—and the neatness and *durability* of the work performed by it."—*To the Willcox & Gibbs S. The Palm of Superiority.

On the whole we are constrained, after close observation, and the use of different machines for more than a year, to award the palm of superiority to the Willcox & Gibbs, as the most complete in all its parts, and the most perfect in its operations—a family machine, adapted to sewing any number of thicknesses, from one to twenty folds of sheeting muslin.—*The Economist.*
